

ID Tie Seal

The ID Tie is a medium strength, adjustable security seal designed to be used on any equipment requiring a tamper-resistant locking mechanism and reasonable degree of strength. This adjustable, seal is manufactured out of High Density Polyethylene (HDPE), which enables it to withstand great variances in temperature.

FEATURES

- High strength strap seal suitable for rough handling environments
- Smooth tail insertion for easy pull-up
- Large flag for improved reability

APPLICATIONS

- Cable Marking
- Valves
- Totes
- Maintenance Tags

MATERIAL

High Density Polyethylene (HDPE)

STRENGTH

Average looped pull apart force:
25 lbs (11.3 kg)

DIMENSIONS

- 4.56" (11.58 cm) overall length
- 3.12" (7.92 cm) usable length

MARKING/PRINTING

- Heat stamping
- 3 lines up to 12 characters

STANDARD COLORS

Red/Blue/Green/Yellow/Orange/Black

PACKAGING

Master Carton:

- 10,000 seals
- 37" x 13" x 18" (94 cm x 33 cm x 45.7 cm)
- 38 lbs (17.2 kg)
