Self-Lok Seals
SEL-0™ - SEL-1™ - SEL-100™

TydenBrooks®
SECURITY PRODUCTS GROUP

Metal clamshell type seal used with a wire or cord.
May be easily closed with finger pressure.

APPLICATIONS

- Tanks
- Drums
- Valves
- Tote Boxes
- Trailer Doors
- Gas Cylinders

FEATURES

- Available as a Standard Product
- Metal one piece seal that locks with finger pressure
- Can be applied with wire, string, twine or other materials
- Available in three sizes
- All three sizes available with wide cut-outs at the hinge to accommodate thick wire or cord

MATERIAL

- Body: Tin Plate
- Wire: Multi Strand Galvanized Steel

DIMENSIONS

- SEL-0: 5/8" (15.9mm) x 7/16" (11.1mm) x 1/4" (6.4mm) closed
- SEL-1: 13/16" (20.6mm) x 11/16" (17.5mm) x 7/32" (5.6mm) closed
- SEL-100: 1-3/16" (30.2mm) x 7/32" (5.6mm) x 1" (25.4mm) closed

MARKING/PRINTING

- Minimum quantities apply to customized versions of this product – please call for details
- Stamped (imprint "cut" into the seal, nothing fancy.)
- Embossed (raised imprint, kind of like Braille) - same color as the seal
- Lithographed - printed with colors
